Amazon Jan 2024 - Present

Product Designer, AI Platform

• Built a lean icon generation agent as a Kiro Power (patent pending) — encodes design taste as model instructions

• Shipped a production model catalog page to mainline — designed, built with Kiro, and merged through standard code review on a 70-developer codebase

• Led Amazon Content Partners — inherited an unshipped project, reworked the UX end-to-end, shipped v1 as sole designer

• Led Nova Builder Studio (showcased at re:Invent) — designed a CMS that converted Quip documents to Nova Design System specs, enabling content publishing without design handoff

• Created the Nova icon library; shaped overall look & feel and designed multiple navigation iterations

• Designed UI/UX for Nova Sonic (audio chat); contributed to model onboarding patterns: list views, edit/view forms, field schemas

Neon Machine / Shrapnel 2022 - 2024

Lead Product Designer

• Product owner and creator of the SHRAPNEL NFT marketplace for a PC extraction shooter — end-to-end: browsing, search, promotion, buy/sell/auction, payment, and account management

• Contributed to player-profile, leaderboard, questing, inventory, and RNG item-recycling features

• Created the SHRAPNEL Design System: UI, type ramp, iconography, and Figma component library for game and web

• Wrote product definition docs, QA test scripts, notification-system spec, and data models

• Daily collaboration with tech director, game UX director, CMO, producers, and art director

Expedia 2021 - 2022

Sr. Product Designer

• Led Service Platform Design Team through post-pandemic service model strategy

• Lead designer for Expedia White Label Template — a site-builder automation product

• Roadmap and sprint planning, Figma mocks and prototypes, token-based component system

Walmart & Sam's Club 2020 - 2021

Sr. UX Designer

• Redesigned car-wash kiosk interface — flows, wires, prototypes, static and animated assets

• Coordinated with Fuel Team, hardware vendors, and developers

• Led design for internal Augmented Reality Inventory app

Funko 2019 - 2020

Sr. UX Designer

• Full e-commerce site redesign with style guide, component library, and page templates

• Drove company-wide focus toward mobile, accessibility, data, and automation

• Coordinated directly with CMO to scope and review features against business goals

Indigo Slate 2018 - 2019

Sr. Designer

• Lead designer and illustrator for Dell Interactive Mural — responsive from installation scale to desktop and mobile

• Led Sony Alpha Universe managed service; created shoppable and marketing experiences on sonyalpha.com

Deloitte 2017

Sr. Designer

• Led Deloitte Digital site redesign — UI style guide, page templates, and development specs

• Led Jira sprints and stakeholder reviews; guided offshore developers and in-house designers

Microsoft 2014 - 2017

UX Designer

• Style guide and specs for Dynamics CRM product group; lead designer for CRM mobile and web portals

• Feature owner for CRM Business Process and Help Portals; UI redesign for CRM in Outlook for web

• Visual and UI design for Bing Mobile Image Search

• Design support for Xbox One launch — storyboard and animation for in-product teaser video

BFA, Design — Cornish College of the Arts 2012
